

Dear Parents/Carers,

A friendly welcome back to school from our Year 3 team!

A little note regarding homework for this week.

To encourage independence, further engage our students and to ensure they become familiar with the increasing expectations within KS2, we will often set homework using one of our online platforms: My Maths, Spag.com, Maths.co.uk and Times Table Rockstars. For these, the children will require log in details. Within the children's homework books (purple), there will be a copy of instructions for how to log on to each site, along with each individual log in details.

It is important that the children have their homework books with them each day so that they can access these details for a number of different sessions within school, or even homework club if they wish to attend.

For this week, your homework task is to check your log in details work. Please could you support your child in logging on to each site and checking that they are able to input the details accurately, identifying where there may be capitals, symbols etc.

Could you tick the boxes below to help us identify where we may need to support further.

I have been successful in logging on to the following sites:

My Maths

TTRS

Spag.com

Maths.co.uk

Thank you for all your support.

Miss L. Alton & Mrs L. Anderson
