

Our book focus this week is:

Only One You

This week in Reception Class...

14th September 2026

We have been playing listening games and learning how we listen to one another. We have been talking about our families, ourselves and how we are all unique.

In Maths we have started the unit, Matching and Sorting. The children have been finding items that match and putting them together. We have also been learning about sets, same and different.

This week the children have enjoyed learning about each other's families and the homes they live in. We are beginning to find out that we are all different and all special. The children also had P.E with Mr Newbold. They persevered when getting changed into their P.E kits and loved spending time in the hall. They also enjoyed learning new songs with Mrs Marshall which they then sang with the whole school in assembly.

The children are demonstrating how they are building relationships with their new friends and getting used to being part of a larger group. There children have been expressing there feelings and thinking about each other.

We were introduced to Bounce and Skip from Kinetic Letters to help us support our writing. We have started to practice making our bodies strong by learning the Kinetic Letter family positions. We have been developing our fine motor skills, mark making and threading.

We have made our own only one you fish to display in the corridor, the children enjoyed using crayons and designing their fish. The children have also been using boxes, googly eyes and other items to make their own models.

The children have enjoyed mark making in different ways using chalk, whiteboard pens and crayons.

We have started our phonics learning by focusing on a different nursery rhyme each day. We have found rhyming words, syllables and made sound patterns.

The children have been persevering when creating their models and making obstacle courses outside.

C of EL This week we have observed the class...

Enjoying exploring their learning environment, building relationships and having a go at new things.
